CS 543 Fall 2020 Honor Code

Students may discuss and work on homework problems in groups. This is encouraged. However, each student must write down their solutions independently to show they understand the solution well enough in order to reconstruct it by themselves. Students should clearly mention the names of all the other students who were part of their discussion group. Using code or solutions obtained from web is considered an honor code violation. We check all the submissions for plagiarism. We take the honor code seriously and expect students to do the same.

I acknowledge and accept the Honor Code.
